What proof of insurance should I use if I'm involved in an accident while driving with Uber?

You can access an electronic certificate of insurance through the Uber app. If you're involved in an accident while you're driving with Uber, you'll need to refer to this electronic document.

How do I make a claim for a collision that occurred while I was driving with Uber?

If you get into an accident while participating in ridesharing or delivery, contact Uber using the Uber app to start the claims reporting process. Uber will record details about the accident and provide them to Economical. Once your submission is received from Uber, Economical will process your claim. If you have any questions about your claim, you may contact Economical at 1-800-607-2424.

I've added optional coverages to my personal car insurance policy, including loss of use and replacement cost coverage. Are these included in Economical's commercial auto insurance policy?

For Uber Delivery:

The commercial insurance policy issued by Economical provides coverage from the moment you make yourself available to accept a request to the moment your trip ends. This commercial policy does not provide any optional coverages or endorsements, regardless of what's included on your personal car insurance policy. However, it does include Comprehensive and Collision coverage for physical damage to your vehicle if you already have this coverage on your personal insurance policy (subject to a \$2,500 deductible). The commercial auto insurance policy issued by Economical also includes Third Party Liability coverage and Standard Accident Benefits coverage.

For Uber Ridesharing:

The commercial insurance policy issued by Economical provides coverage from the moment you make yourself available to accept a request to the moment your trip ends. This commercial policy does not provide any optional coverages or endorsements, regardless of what's included on your personal car insurance policy. However, for Periods 2 and 3 only, it does include Comprehensive and Collision coverage for physical damage to your vehicle if you already have this coverage on your personal insurance policy (subject to a \$2,500 deductible). The commercial auto insurance policy issued by Economical also includes Third Party Liability coverage and Standard Accident Benefits coverage.

Can I be penalized by my personal car insurance provider for incidents that occur while I'm driving with Uber?

For Uber Delivery:

The commercial auto insurance policy issued by Economical provides you with coverage from the moment you make yourself available to accept a request to the moment your trip ends. Claims for incidents that occur during this time will be made against the commercial policy, not your personal policy. If you're in a collision while participating in delivery with Uber, reference the Uber electronic certificate of insurance on the Uber app to confirm the correct policy number.

If an accident that occurred while you were participating in delivery with Uber is charged to your personal policy, please contact your personal insurance broker or agent. Economical will provide you with a letter to give to your personal car insurance company to let them know that the claim is being charged to the commercial policy.

Any driving infractions that occur while you are participating in delivery with Uber (e.g., speeding tickets) could potentially affect your personal car insurance policy.

For Uber Ridesharing:

The commercial auto insurance policy issued by Economical provides you with coverage from the moment you make yourself available to accept a request to the moment your trip ends. Claims for incidents that occur in Period 1 should first be made against your personal policy, but back-up coverage may be available through the commercial policy. Claims for Period 2 & 3 will be made against the commercial policy, not your personal policy. If you're in a collision while participating in ridesharing with Uber, reference the Uber electronic certificate of insurance on the Uber app to confirm the correct policy number.

If an accident that occurred while you were participating in ridesharing with Uber is incorrectly charged to your personal policy, please contact your personal insurance broker or agent. Economical will provide you with a letter to give to your personal car insurance company to let them know that the claim is being charged to the commercial policy.
